Company	KITO CORPORATION
President and CEO	Yoshio Kito
Identification Code	6409 (TSE 1)

Kito Makes Major Stride on Carbon-Free Energy

Tokyo, April 1, 2022 - Industrial hoist and crane maker Kito Corporation (head office: Yamanashi; president: Yoshio Kito) has switched today 50% of the energy used in Yamanashi main plant, its production center, to essentially carbon-free sources. With this shift the company projects a reduction in carbon-dioxide emissions from plant operations by about 4,382 tonnes per year.

Kito is promoting initiatives to achieve its goal of halving its CO2 emissions (domestic Scopes 1 and 2) relative to its fiscal 2019 level by 2026, under environmental policy designed to support a prosperous, sustainable society where people live in harmony with the earth.

Through products that excel in safety and durability, as well as clean, no-waste processes for producing and distributing them, Kito makes workplaces safer for all industries, reduces environmental impact and contributes to society in many ways.
